letter follows, is another woman in high position who owes her health to the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: - I suffered for several years with general weakness and bearing-down pains, caused by womb trouble. My appetite was fitful, and I would lie awake for hours, and could not sleep, until I seemed more weary in the morning than when I retired. After reading one of your advertisements I decided to try the merits of Lydia E. Pinkham's Vegetable Compound, and I am so glad I did. No one can describe the good it did me. I took three bottles faithfully, and besides building up my general health, it drove all disease and poison out of my body, and made me feel as spry and active as a young girl. Mrs. Pinkham's medicines are certainly all they are claimed to be."—Mrs. M. E. Hughson, 347 East Ohio St., Chicago, Ill.

Mrs. Pinkham Tells How Ordinary Tasks Produce Displacements. Apparently trifling incidents in woman's daily life frequently produce displacements of the womb. A slip on the stairs, lifting during menstruation, standing at a counter, running a sewing machine, or attending to the most ordinary tasks may result in displacement, and a train of serious evils is started.

The first indication of such trouble should be the signal for quick action.

Don't let the condition become chronic through neglect or a mistaken idea that you can overcome it by exercise or leaving it alone.

More than a million women have regained health by the use of Lydia E. Pinkham's Vegetable Compound.

If the slightest trouble appears which you do not understand write to Mrs. Pinkham, at Lynn, Mass., for her advice, and a few timely words from her will show you the right thing to do. This advice costs you nothing, but it may mean life or happiness or both.

Mrs. Lelah Stowell, 177 Wellington St., Kingston, Ont., writes: "DEAR MRS. PINKHAM: - You are indeed a godsend to women, and if they all knew what you could do for them, there would be no need of their dragging out miserable lives in agony. "I suffered for years with bearing-down pains, womb trouble, nervousness, and excruciating head-ache, but a few bottles of Lydia E. Pinkham's Vegetable Compound made life look

new and promising to me. I am light and happy, and I do not know what sickness is, and I now enjoy the best of health." Lydia E. Pinkham's Vegetable

Compound can always be relied upon to restore health to women who thus suffer. It is a sovereign cure for the worst forms of female complaints,—that bearing-down feeling, weak back, falling and displacement of the womb, inflammation of the ovaries, and all troubles of the uterus or womb. It dissolves and expels tumors from the uterus in the early stage of development, and checks any tendency to cancerous humors. It subdues excitability, nervous prostration, and tones up the entire female system. Its record of cures is the greatest in the world, and should be relied upon with confidence.

It is unfortunate for himself that he was The public's memory may be defective scenes of four years ago, in which caucuses were packed and money flowed like water, it would not inure to his benefit as a vote-getter. The republican party in Washtenaw was wrecked in the scramble, and we doubt not that many other counties suffered from the same cause. We would fain believe that those who sent out their money by thousands of dollars were not aware of the uses to which it was put, but a stigma atttaches nevertheless, and self-respecting republicans have not for-

We have nothing personal to say against any of these former candidates, but we do think that the party should steer clear of all of them. There is a feeling, a strong feeling, against those, unwittingly it may be, who were mixed up in that fracas which at the time called for the most vigorous and threatening protests from thousands of stalwart republicans all over the state. To bring these same parties again into the contest would be simply to challenge the opposition of those who demand pure politics and candidates who are not exposed to public criticism. Money may determine the character of the next nominating convention as it did four years ago, but it should not be forgotten that the test of strength must be made after the ticket is in the field, and unless we mistake the temper of the rank and file, their votes will bring a surprise if sought through the corrupt influences which led finally to the nomination of Governor Bliss.

It is common talk in this neck of woods that the true policy of the party is to cut entirely loose from the chronic office seekers and nominate a ticket that will, prima facie, announce a new departure in the choice of candidates.

There is plenty of material for choice among those whose names would be as a posing the President's Panama policy are bond for all that is honest, patriotic and entitled to the sympathy of the more enefficient in the exalted position to which lightened statesmanship of the country. > THE threatening condition of the Orient may attract attention from the circumstances under which parliament is opened by King Edward, but a glance at the changes which have taken place since adjournment las' June will show that not in many years have so many important questions pressed for consideration as now confront that lawmaking body. The cabinet has been almost reconstructed and party lines have died out or have shifted till there are said to be seven distinct factions, all lining up in one way or another on the fiscal question. It will be a struggle for a change of attitude on the question of protection, and Mr. Chamberlain has been gathering up a powerful following among practical hardheaded business men with which to enter upon the fight. The perennial Irish party is, of course, on hand to stir up strife in hope of gain for Ireland.

THE flurry occasioned by Judge Kinne's injunction enjoining our city council from paying for clothing for the police may not be an unmixed evil, as the mayor would have the public to understand. We often hear the remark that our council are too free with the public money, appropriating it for private purposes, and it is well to call a halt until we learn what is legal and what is illegal. Taxes have mounted upward rather rapidly within the past few years and have become a real hardship to many of our people who have only a little home for their declining years, and s stricter economy in public expenditures is called for, and Judge Kinne's action may result in doing what is most desirable in this direction.

THE democrats in congress who are opprotest. The south, above any other section, want the isthmian canal, and their temper over the opposition shows they have a rod in pickle for the recalcitrants. My Dear Aunt Kate:

I must tell you the good news. Right after receiving your letter, the day before New Year's I started in with new resolutions on the first of the year. I wrote to Dr. R. V. Pierce, at Buffalo, N. Y., as you requested me to do. I gave him all my symptoms, which were that I was tired—so tired—all the time and did not care to go anywhere, depressed and sad, and all ambition gone, backache and a dragged-out feeling, could not sleep, limbs feeling sore and aching. I followed the doctor's advice, which he went to considerable pains to and aching. I followed the doctor's advice, which he went to considerable pains to make plain to me—to rest every day—a nap after lunch—complete relaxation—cultivate repose of mind, try not to worry, get as much outdoor air as possible, and practice long, deep breathing, expanding the lungs. Then for a uterine tonic, Dr. Pierce's Favorite Prescription, coupled with a wash he told me of. I must say that after following his advice for four months I feel perfectly cured and like a new woman.

Yours affectionally, JEWEL.

LESSON VI, FIRST QUARTER, INTER-NATIONAL SERIES, FEB. 7.

Text of the Lesson, Mark i, 21-34. Memory Verses, 21, 22-Golden Text, Luke iv, 40-Commentary Prepared Hundreds of Ypsilanti Readers by Rev. D. M. Stearns.

[Copyright, 1903, by American Press Association.] The events of this lesson were probably immediately subsequent to those of last week. This well filled Sabbath day included His teaching in the synagogue and healing a demon possessed man there; then the rest of the day at Simon's home, where He healed Simon's wife's mother, and at sunset all the sick who gathered about Simon's door. The record of the first part of the day is found in Luke iv, as well as in Mark, and the record of the rest of the day is found in Matt. viii, as well as in Luke iv. The record of this and every day of His public ministry is well summarized in Acts x 38, "Anointed with the Holy Ghost and with power He went about doing good and healing all that were oppressed of the devil, for God was with Him.' This also ought to be true in some measure of every believer, for the life of Jesus should be manifest in us (II Cor. iv, 10, 11). One has said that the eye of the world takes in more than the ear and that Christians' lives are the only religious books the world reads. Therefore there is not so powerful a sermon in the world as a consistent Christian life.

Having been cast out of Nazareth, He made Capernaum His home, which is spoken of as "His own city" (Matt. ix, 1), and there and throughout all Galilee He preached the gospel of the kingdom and healed all manner of sickness and disease (Matt. iv, 23). John the Baptist was now in prison, and our Lord was probably in the latter part of His first year's ministry. As He taught the people heard that which they were not accustomed to, for He taught with authority. He said only what the Father told Him. His text book was the law, the prophets and the psalms, and He expounded in all the Scriptures the things concerning Him self (John xii, 48, 49; Luke xxiv, 27 44, 45). Just the same teaching and exposition are needed today, and those who teach otherwise than according to the Scriptures are not following our blessed Lord.

Evil spirits still possess and speak and act through men, women and children, and such are sometimes found in church and Sunday school to this day. They want to be let alone concerning righteousness and temperance and judgment to come. They say, "Speak unto us smooth things, prophe sy deceits; cause the Holy One of Israel to cease from before us" (Isa. xxx, 10, 11). Saying true things about Jesus Christ as this man did or as the woman did at Philippi (Acts xvi, 17) is not necessarily evidence of a true knowledge of Jesus, yet there are peo ple even among the preachers whose knowledge of Jesus does not seem to exceed that of these evil spirits. Where there is no true reception of Jesus

The Lord Jesus by His word deliv ered this man from the evil thing in him, and the man was whole. When him, and the man was whole. When people talk and act like the devil let us remember that Jesus still lives, and Tar. Sold by Frank Smith. He is able and willing to cast out the evil spirit and give instead His own Spirit. If we trusted Him more fully in these things how His fame would spread abroad! It had been a strange morning in that synagogue at Capermanifest in the flesh. As Simon, Andrew, James and John walked from the synagogue to Simon's home what may have been their musings? Possibly the one in Simon's home.

As soon as He took the sick one by the hand the fever was gone, and she was able to rise and minister to them. This is not the way that fever patients generally recover, but such recoveries are all easy to Him who made us. Demons cannot abide Him, sickness flees before Him. He is life and health and light and strength, and nothing to the contrary can abide in His presence Soon the fame of Him and His wonderful works spread through the city, and at even when the sun was setting. reach were to be found at Simon's door. He cast out many demons with His word and laid His hands on every one who was sick and healed them (Luke iv, 40, 41). We do not read that they had faith to be healed, though their faith may possibly be seen in the fact of their being there. We do see two great realities-on their part a great and felt need and on His part a great and overflowing fullness Where the need is really felt and such come to Him in faith His fullness will be surely seen.

What a busy Sabbath day! What untold light and joy had come to hearts and homes which only that morning had been full of sorrow and sighing! Free as the air and sunshine and showers of heaven had the bless ings come to all those hearts and homes. There is a Sabbath coming t this whole earth when there shall be no more sickness or pain or death shall then be King over all the earth, King of kings and Lord of lords (Rev xxi, 3, 4; xvii, 14; Isa. xxxiii, 24; Zech. xiv, 9). After some rest He is up a great while before day and away alone with His Father, for He lived by His

"Lincoln as a Genius" was the theme of Judge J. W. Donovan of the Wayne cirbecause this same Jesus of Nazareth cuit court when he lectured Friday even ing to a crowded house before the University law school Webster club. The speaker carried the boys graphically over Mr. Lincoln's boyhood, early and later struggles, his wit and genius in life, law, politics and Father (verse 35; John vi, 57). His diplomacy. He nearly took the students' words and works were all His Father's breath away once by saying: "So plain Abraham Lincoln, the farm boy, with a year's schooling in books, a life of toil and study, and eight years in the legislature, who had mastered Shakespeare, the Bible, Euclid and Blackstone without a teacher, and who knew men, was, with his gift of debate and his sturdy frame, as well equipped to enter law as is the leading law gradnate of App Arbor with his diploma-for he knew Blackstone, and the students have not yet committed half of it to memory." The boys applauded vigorously. The en-

tire lecture was vivid, illuminating and inspiring, and gave its hearers a wonderful MORPHINE view of the truly marvelous man. Judge Donovan surely made good with the students, and will always be a welcome vis- What Is to Become of the Conitor to Ann Anbor.

A Thousand Dollars Thrown Away. Mr. W. W. Baker of Plainview, Neb writes: "My wife had lung trouble for over fifteen years. We tried a number of octors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did and thanks be to this great remedy, saved her life. She is stronger and enjoy better health than she has ever known in ten years. We shall never be without Folev's Honey and Tar, and would ask those afflicted to try it." Sold by Frank Smith.

Whistler took no further notice of his servitor, but resumed the reading of his proof sheets to me, and the puzzled footman, who was standing behind his master's CAN THEY BE CURED? back and facing me, shook his head slowly up and down and, like Longfellow's Arabs, "silently stole away." This question is agitating the minds of Thus the reading went on for quite ten auditor fidgeted more and more till, realizing how deadly cold it was on that I overheard your servant telling you that a lady was waiting to see you." Then he went on reading for fully fifteen minutes more, and after that (his voice was getting tired, I dare say) he condescended to go downstairs and receive her shivering ladyship.-F. Shorty Long's Escape. "There used to be a cigar store round the corner of Fifth avenue and Wood street," said an old timer, "where they had a wooden Indian which stood on a platform during the day, but was always taken in at night to save it from mutilation by the boys about the neighorhood. Shorty Long was one of the well known characters of the town, an all round good fellow, who was always out for fun. On one occasion he started field street and was pursued by the police, who gave him a hot chase down the avenue and were in a fair way to overhaul him when he rounded the corner and sprang on the box where the Indian was to be found during the day. There he took a position as much like that of the wooden chief as possible, and as he posed with outstretched arm the bluecoated guardian of the peace galloped past and disappeared down Diamond alley, while the cause of all the trouble left his pedestal and started out for some fresh amusement."-Pittsburg Dispatch.

Swearing Spoils Horses. The horse does not like a nervous, fidgety, fussy or irritable man. He is too nervous and irritable himself, says Country Life In America.

"Why is it," one teamster was heard to ask another, "that Phin's horses are always gaunt? Phin feeds well." "Yes," was the reply, "but he's like a wasp

around a horse." A well known owner of race horses, not at all a sentimental person, recently made an order forbidding his employees to talk in loud tones or to swear in the stable. "I have never yet seen a good mannered horse," he says, "that was being sworn at all the time. It hurts the feelings of a sensitive horse, and I'll keep my word good to discharge any man in my employ if I catch him swearing within the hearing of any horse in this stable."

Webster's Tiresome Habit. Senator Hoar in his "Reminiscences' says that Daniel Webster had a tiresome habit in his public speeches of groping after the most suitable word after this fashion: "Why is it, Mr. Chairman, that there has gathered, congregated; this great number of inhabitants, dwellers, here; that these roads, avenues, routes of travel, highways, converge, meet, come together here?" When the speech was printed all the synonyms but the best one would be left out.

THE NECESSARY MAGAZINE IN THE PRESIDENTIAL YEAR

The Review of Reviews is often called a necessity, in recognition of its usefulness in keeping readers "up with the times."

In Presidential election years the REVIEW OF REVIEWS is more than ever "the necessary magazine." Everybody wants to be truly and quickly informed about this or that public question that has forged to the front; to know about the new candidates and personal factors in politics, to have a complete picture at hand of the current movement of

In Dr. Shaw's editorials, in its authentic and timely contributed articles, in its brilliant character sketches, in its condensations and reviews of all the important articles of other magazines, and in its hundred a month of valuable portraits, witty cartoons, and interesting views, the REVIEW OF REVIEWS gives the much desired news of the world's and our own progress. "The World under a Field-glass" is the way one subscriber describes it.

Men in public life, like President Theodore Roosevelt, the members of Congress, and the great captains of industry, who must keep "up with the times," intelligent men and women all over America, have decided it is "indispensable."

Wonderful Human Hand.

The human hand is so beautifully formed, it has so fine a sensibility, that sensibility governs its motion so correctly, every effort of the will is answered so instantly, as if the hand itself were the seat of that will; Its actions are so free, so powerful, and yet so delicate, that it seems to possess a quality instinct in itself, and we use it as we draw our breath each moment, unconsciously, and have lost all recollection of the feeble and illdirected efforts of its first exercise, by which it has been perfected. In the hand are twenty-nine bones, from the mechanism of which result strength, mobility and elasticity. On the length, strength, motion and mobility of the thumb depends the power of the hand. Without the fleshy ball of the thumb, the power of the fingers would avail nothing, and, accordingly, the large ball formed by the muscles of the thumb is the distinguishing character of the human hand.

Italy's King as a Sportsman The King of Italy is devoted to all outdoor sports, more especially tennis, shooting, yachting, motoring and sshing. In some trials steers fed Kafir meal made better gains for a long time than did those fed corn meal, but this was not true in any extended period. Hogs great when fed on Kafir as when fed corn. Sheep seem to digest Kafir better than any other class of farm animals. Kafir stover apparently has practically the same feeding value as corn stover and often is in better condition. Running the entire stalk through a thrashing machine puts the stover in excellent condition. Alfalfa is the best hay for either horses, cattle or sheep and is a help to hogs during winter.

Live Stock Husbandry.

One of the important foundation stones of agriculture is live stock husbandry. By many this is believed to be the most profitable branch of farming. Some practice the feeding of all they grow to live stock raised on their farms. Certain it is that the nation that tries to farm without live stock runs the chance of impoverishing its lands. This has sent more than one nation into decay. Still, to raise live stock successfully one must have a are some farmers that hold to gran growing because they have to work only a few months out of the year and have the balance of the time in which to rest. Such men are blamed sometimes because they do not go into stockraising in addition to grainraising. The probability is that if they did go into the raising of stock they would neglect it and so lose money. By bad methods it is easy to lose money rapidly in stock-raising. Every man that is willing to study his work and has had experience in the general work of farming can go into must be reality in the founder of a tail of Lord Curzon's recent visit to the business of breeding and feeding family, for the name Aufidius of An- Koweit was the constant fusillade of farm animals with good chances of

The death of Charles H. Roberts, though not unexpected, is deeply regretted by s very wide circle of warm friends, as few men had more good friends than Mr. Roberts, who was esteemed wherever he was known. Mr. Roberts was born in 1852 on the farm where he lived all his life. His father kept the Roberts tavern, a noted hostelry on the state road between Detroit and Chicago, before the days of railroads, and the Roberts school house was also named from this farm. He married Miss Alice Hubbell, daughter of the late Chas. Hubbell. The Roberts home was a favorite place for neighborhood gatherings and an important factor in the life of the community. About twelve years ago Mr. Roberts entered into partnership with F. W. Horner as stock-buyers and shippers, a relation which continued for four years. Then for three years he was in partnership with Grove Spencer, and then was for four years again with Mr. Horner. Nearly a year ago his health failed and he was obliged to retire from active business, a fact that brought real regret to the many with whom he had dealt so many years. He gradually grew weaker till the end came Saturday morning. He leaves a widow and an adopted son, Charles.

The funeral was held Tuesday afternoon, under Masonic auspices. Rev. R. K. Wharton conducted services at the house, and Dr. C. O. Hoyt had charge of the ceremony at the cemetery, where the pallbearers were Frank Banghart, H. D. Wells, A. C. Coe, C. A. Arnold, Orrin Bemiss and F. W. Monroe.

D. L. Ostrander. The funeral services of ex-Alderman D. L. Ostrander, held Thursday afternoon from his late residence, 112 East Congress street, were well attended. The large house being too small, one of the neighbors kindly opened their house to accommodate the common council and those who would otherwise have had to stay outside,

The floral offerings, over fifty in number, were a small indication of the high esteem in which he was held. Some of the larger pieces were those sent by the Masonic fraternity, the employes of the Box Factory, the Elks, and his friends of the Fourth and Fifth wards and school

Rev. C. T. Allen conducted the services, beautiful music being rendered by a quartet from the church choir. The remains were interred in Highland cemetery. The services at the grave were impressive. The grave was carefully draped in green and white, and a tent protected the relatives from the inclemency of the weather. The pallbearers consisted of two aldermen, two Masons and two Maccabees, all very dear friends of the deceased.

Mr. Ostrander had often made the remark if he died before a favorite horse did, which he had owned for nearly twenty years, he wanted that horse to bear him to his last resting place. This request was mplied with, and the team which he had driven so many miles was attached to the hearse which bore his body to the ceme-

The action of the council some weeks ago in ordering new uniforms for Policemen Ryan and Ferguson in lieu of the extra salary that they were allowed last year in spite of the express declaration of the charter on the subject, aroused considerable opposition, which resulted in the holding up of the bill for uniforms two weeks ago. As it appeared likely that the bill would go through at this week's meeting, Saturday evening Claude Pearsoll, with D. C. Griffen as attorney, secured from Judge Kinne a temporary injunction, restraining the mayor and all other city agents from paying said bill. The complaint states that the action of the council was in excess of their authority and an illegal and was putting it pretty strong, and at the is desired council meeting Mayor Huston made some remarks of his own. He declared that the injunction impeached the honor and ability of the mayor and aldermen of this city, and that he had investigated the legality of the bill and had been told that the council had been justified in ordering the suits. He also said he thought the whole thing was the work of some one who had a spite against the officers. He advised the council to take steps to have the injunction dissolved, and the city attorney was instructed

There was also a plate once owned by Judge Crane of Dexter, a captain in the

Fourth Michigan Infantry. The Grand Rapids papers speak very warmly of Mrs. Babbitt's generous gift, and the institute is very anxious to acquire her entire collection.
